Bucks County Home Care Company and Its Owners and Managers Charged in Alleged Health Care Fraud Scheme

Thursday, October 16, 2025

For Immediate Release

U.S. Attorney's Office, Eastern District of Pennsylvania

PHILADELPHIA – United States Attorney David Metcalf announced that Favorite Home Care, LLC, Marina Sakson, 59, and Larry Sakson, 61, both of Marlton, New Jersey, and Olena Radionovsky, 49, and Michael Radionovsky, 54, both of Holland, Pennsylvania, were each charged by indictment with one count of conspiring to commit health care fraud and 20 counts of health care fraud.

Larry Sakson and Olena Radionovsky are the co-owners of defendant Favorite Home Care, and Marina Sakson and Michael Radionovsky are employees and managers of the company.

The indictment alleges that Favorite Home Care, LLC, and the Saksons and Radionovskys conspired with each other to commit health care fraud by billing Medicaid and a Medicaid Managed Care Organization for home health services that were not rendered.

As alleged, each defendant personally completed electronic visit verification calls, attesting that he or she was providing home care services, despite not being present with the client purportedly needing services. Favorite Home Care, LLC then submitted claims and received payments for the care that was not rendered.

This case was investigated by the FBI and U.S. Department of Health and Human Services Office of Inspector General and is being prosecuted by Assistant United States Attorney Elizabeth Abrams.

The charges and allegations contained in the indictment are merely accusations. Every defendant is presumed to be innocent unless and until proven guilty in court.

Note: the posting of this press release was delayed, due to the federal government shutdown from October 1, 2025, to November 12, 2025.
