Greensboro, NC – Chaudhry Shabbir Ahmed pled guilty on Monday, February 3, 2025, to conspiring to launder over \$3 million in connection with a \$100 million dollar health care fraud scheme, announced Acting United States Attorney Randall S. Galyon.

According to court documents, Ahmed conspired with another individual to represent himself as the owner of two durable medical equipment businesses—Dune Medical Supply, LLC located in High Point, North Carolina and Prospect Health Solutions, Inc. located in Fort Lauderdale, Florida. Ahmed and a co-conspirator used a sham purchase agreement to make it appear as though Ahmed owned and operated these companies, even though the co-conspirator continued to control the companies. Once Ahmed was listed on relevant documents as the sole owner of Dune and Prospect, including documents submitted to Medicare, Dune and Prospect collectively submitted more than \$100 million in fraudulent claims to Medicare. The claims were submitted between April 2024 and August 2024 for durable medical equipment that Medicare beneficiaries never received, requested, or needed, or that the provider never ordered.

Before the scheme was discovered, Medicare electronically deposited more than \$33 million in claim reimbursements into bank accounts held in the name of Dune and Prospect at various financial institutions. Ahmed had access to these accounts and would withdraw fraud proceeds in cash at bank branches. For example, on June 30, 2024, Ahmed withdrew \$400,000 in cash from Prospect's bank account and on August 9, 2024, Ahmed withdrew \$500,000 in cash from Prospect's bank account.

As part of the plea agreement, Ahmed agreed to forfeit over \$17.6 million dollars that was seized during the investigation, as well as a Rolex watch and cryptocurrency.

Sentencing is scheduled to take place on June 24, 2025, at 9:30 a.m. in Greensboro, North Carolina, before Chief United States District Judge Catherine C. Eagles. At sentencing, Ahmed faces a maximum sentence of five years in prison, a period of supervised release of up to three years, and monetary penalties.

The Department of Health and Human Services–Office of Inspector General and the Federal Bureau of Investigation are investigating the case, and it is being prosecuted by Assistant U.S. Attorneys Rebecca Mayer, JoAnna McFadden, and Ashley Waid.
