For Immediate Release

U.S. Attorney's Office, Eastern District of Missouri

ST. LOUIS – In July of 2024, the U.S. Attorney's Office in the Eastern District of Missouri [announced](#) that a federal grand jury charged physician David A. Parks, clinical manager and clinical research coordinator James M. Bilderback, and front desk assistant Michelle J. Scheer with crimes related to the clinic at which they worked, located at 3960 Lindell Boulevard in St. Louis. The indictment alleges that from at least July 6, 2016, through Dec. 31, 2021, the three conspired to knowingly and intentionally prescribe controlled substances outside of the usual course of professional practice and for no legitimate medical purpose. The conspiracy's goal was to maximize their patient population and, in turn, their profit, the indictment says. Parks and Bilderback, the indictment alleges, also conspired to defraud Medicare, Missouri Medicaid and private health insurers by billing them for claims for services that falsely and fraudulently identified Parks as the provider, including at times when Parks was out of the country.

On August 15, 2025, U.S. Magistrate Judge John M. Bodenhause issued an order directing the government to employ alternative victim notification procedures so that any member of the community who believes they may be a crime victim is made aware of their potential rights.

The government is asking members of the community who believe they may be a victim of illegal prescribing of controlled substances or fraudulent billing practices by Dr. David A. Parks, James Bilderback or Michelle Scheer to please email USAMOE.Victims@usdoj.gov to reach the Victim-Witness Unit at the U.S. Attorney's Office, Eastern District of Missouri.

Former patients of Parks or their families may still be facing the aftermath of illegal prescribing of controlled substances or fraudulent billing practices. The victim-witness program provides information, services and support to individuals during federal prosecutions.
